

Pro Rautatie is founded in the year 1997. The association Pro Rautatie will promote and develop railway traffic, operating possibilities of the railway and the use of trains in Finland.

It collects all in railway traffic, in it's future and developing of it, interested organisations and those who will have benefit of railways to discuss and developing the railway service of the future.

The members of the Pro Railway are companies and communities. Private citizens can operate as supporting members of Pro Railway. Our members 2004 are:
